CINCINNATI Enquirer: "A. J. S Robbins and others brought a big suit against the New Orleans and Northeastern railroad in the Superior Court yesterday. The plaintiffs seek to recover \$49,868 b8. It is alleged that a contract was an ered into with the deendant on January 16, 1882, by which Robbins & Co. agreed to complete all the grades and macoury on 13 sections on the northern division of the defendant's road. It is claimed that \$34,570 83 is now due for work performed, and \$13,000 damages for failure to pay certain invallments when they be-came due. The plaintiffs also claim \$22, 97 75 on account of tools purchased of Robbins and others by the railroad company. I is alleged that there is money in the hands of the Third, Fourth and Merchants' National Bank, H. H. Tatem and John Scott, belonging to the plaintiffs, sgainst which an attachment was issued."

THE Indian spolis Journal's railroad man speaking of the Caicago Exposition of Railroad Supplies, says: "There are 126 car-couplers on exhibition, and one rather enjoys hearing the representative explain the special feature of his coupler. Those who are disappointed with the manner railroad men speak of their couplers can readily be known from the tenor of their conversation, they persisting that they have a good coupler, but never expect to get it introduced, hey say, while our railroads are controlled y monopolies which think a human life is f no value. On Saturday last a great commotion was noticeable among the car-coupler men, and on inquiry it was learned that a compler inventor of New Jersey had sold his patent out to a syndica e of railroad men for \$30,000, cash in hand. The comments thereafter among the jealous coupler men were very amusing, each claiming that his coupler was better than the one sold, and all is in the chorus that the one sold, and the est coupler of the 126 or Minbition."
